

## **A Great Organization. An Amazing Place to Work.**

As one of Canada's largest faith-based health care organization, Providence Health Care has the largest Renal Program in British Columbia. The Renal Program provides an exciting and diverse work environment that embraces Providence Health Care's mission and values - values that respect and embrace diversity in our care delivery. You'll find opportunities that touch on every facet of renal care, including hemodialysis, peritoneal dialysis, pre-transplant assessment, post-transplant care, inpatient and outpatient Nephrology care, kidney transplantation and community units. Join an integrated interdisciplinary, professional team of caregivers using cutting edge research and working with patients and families to develop a care plan that focuses on wellness and maximum quality of life. We currently have an opportunity for a:

## **Clinical Nurse Specialist - Renal Program**

As a clinical leader in a particular specialty within and/or across programs, you will provide expert nursing care to patients/residents and families. Clinical Group/Operation Leaders, other nurses and health care professionals will look to will look to your expertise for recommendations and advance nursing practice and patient/resident outcomes both in the area of specialty, nursing practice initiatives and policy.

Currently registered with the College of Registered Nurses of British Columbia, you have a master's degree in Nursing and five years of nursing experience. Your experience also includes three years of recent related experience, preferably in Renal or Nephrology.
